

## ISLE OF WIGHT LOCAL REQUIREMENTS (In addition to National Requirements)

January 2017

Where information is not required in order to validate a planning application, the planning authority may subsequently request additional information to justify the proposals against planning policies or to determine impacts, depending on the specifics of an application, the site and its potential impacts.

Any plans or drawings must be drawn to an identified metric scale (stating either scale and paper size or showing a scale bar/ruler or clearly setting out the relevant dimensions), and in the case of location and block plans, must show the direction of north.
