

# When Hate becomes a crime

**#spreadlovenothate**

# Our aims

- To educate our staff, our partners and their clients about what hate crime is and how to report it
- To focus our expertise on the hate crime experienced by the disability community
- To understand the trigger points for hate crime and work to prepare for this

# Why disability?

- 22.6% of people living on the IW have their day to day activities limited by a long term health condition
- 54% of CA clients have a disability or long term health condition
- Healthwatch IW's nationally lauded mate crime project last year identified real need on the IW
- People Matter IW working constantly with service users and their advocates to make the IW a safer place

# Progress to date

- 8 representatives have been trained by Stop Hate UK the leading national Hate Crime charity
- Dates are being booked in to start training others
- Press release of the project will go out in the next 2 weeks
