1.	Welcome and Introduction – Amanda Gregory Amanda Gregory welcomed everyone to the meeting and asked everyone to briefly introduce themselves.
2.	Minutes and Actions from the last meeting – Amanda Gregory The Minutes from the meeting held on 13 June 2018 were approved. The Action Sheet was updated as attached.
3.	Strategic Assessment – Abby Wilkinson

Abby Wilkinson, Public Health Analyst with responsibility for updating the Community Safety Partnership Strategic Assessment, presented the final draft of the Assessment and invited comments from the group.

She explained that this Assessment is a Statutory requirement and is used to aid with strategic planning. The data sources were wide and varied – from all partners and their comparative groups depending on the data set.

She went on to note that the data is not always comparable due to different time sets, different definitions in comparative groups and different drives/local influences. It is important to remember that with the community engagement survey, this is a self-selecting sample which is not representative of the population as a whole.

As the Assessment was presented, there were comments, discussion and amendments made which Abby took on board and some partners promised to provide more details in order to produce a final draft.

Some specific observations that came up:

An important general observation – to consider how we can have more communication with young people during consultations.

There was a discussion and agreement that Road Safety should be a priority rather than theft (serious acquisitive crime) and delivered through the Road Safety Forum who have lost financial support, particularly as it will tie in with other forums (e.g. children injured on the roads - children's safeguarding) and general impact on society. The data (killed and seriously injured) shows that this is more of an issue for us than serious acquisitive crime. The backing of the CSP would positively influence this group who do it voluntarily.

There was a lot of discussion around crime types and priority areas, the CSP decide which to focus on bearing in mind that some of the priorities are delivered elsewhere by other partners or as business as usual. These are the overarching vision and themes. It was noted that it should be made clear in the Plan that those areas of concern that are not taken forward are still priorities but that the CSP are satisfied that other partners/groups are taking forward/delivering with a mechanism to follow up/feedback. It should also be clear as to who is doing what and that there is a lot of partnership work taking place under these themes.

The priorities identified from the strategic assessment were agreed as:

Reoffending, Violence (specifically focusing on youth on youth, alcohol in public places and drug related), Domestic abuse, sexual offences, Road Safety, ASB and Prevent.

	<p>It was agreed to submit the Strategic Assessment with the corrections and updates as agreed throughout the meeting</p>
4.	<p>Strategic Plan – Helen Turner</p> <p>It was agreed that the priorities themes for the Strategic Plan should be:</p> <p>Sexual Offences – Supt Sarah Jackson to get more detail from DCI John McGonigle</p> <p>Violent Crime specifically focussing on youth on youth violence, alcohol in public places and drug related</p> <p>Anti-Social Behaviour</p> <p>Road Safety – Tracy Webb to provide wording that can then be circulated to partners for agreement</p> <p>Domestic Abuse</p>
