Annex 1 Housing Needs Survey

**NB.** Post-it notes contain a selection of original unedited comments from the consultation days.
ACKNOWLEDGEMENTS

This Plan has been made possible by funding from the Countryside Agency arising from the Government’s Vital Villages “equipping villages to shape their futures”.

The Calbourne Parish Plan Steering Group comprised:

Daphne Birkwood (Chair)

Jane Ball
Anne Chambers
Tony Chaucer
Laurence Coates

Neil Gardner
Mike Hailes
Teresa Hayles
Scott Hayles

Gary Hughes
Rev Mollie O’Donnell
Geoff Smallman
Roger Smith

Jill Wareham Ward Councillor

The Steering Group were well supported by Steve D’Giacoma, the Rural Development Officer from the Rural Community Council and they would also like to thank Estelle Thomas, Joanne Downey and Clare Hodges of the Rural Community Council and everyone who took part in the consultation events and responded to the questionnaires. The opinions expressed in this plan are not necessarily those of the Steering Group members but are the opinions of the parishioners as conveyed to the Steering Group.

HELPFUL ORGANISATIONS:

Calbourne Parish Council

**INTRODUCTION**

**THE PARISH**

Calbourne Parish is the largest in terms of land area on the Island but is relatively sparsely populated. It consists of the two larger villages of Calbourne and Porchfield (each a ward for electoral purposes) and the smaller hamlets of Newtown, Thorney, Marks Corner, Chessell, Five Houses and Swainston with scattered properties across the area. The Parish has a number of special designations such as the National Nature Reserve at Newtown, Area of Outstanding Natural Beauty, Heritage Coast, Site of Special Scientific Interest and Conservation Areas. Calbourne ward has approximately 140 households and Porchfield ward approximately 250.

Sketch map of the Parish. The blue line indicates the parish boundary.
Note: The A 3054 road separates the two wards.
CALBOURNE

Calbourne is an ancient village with a grade 2* listed church, one public house, a shop/Post Office, hairdresser, car sales, repair garage, several light industrial units at farms near the village. It has a recreation centre and sports field with tennis court and children’s play area; the sports field is the home ground of the local Westover Cricket Club – established over 100 years. There are also two significant tourist attractions, the picturesque Winkle Street (Barrington Row) and Calbourne Water Mill. It is a delightful village which attracts many visitors. Quite a number of the properties in the village are second homes and when houses come onto the market prices are inflated by second homebuyers putting them out of reach of the local working people. If this trend continues the community will die as there will be no young people. The need was identified for younger people to come into the village both to work in the locality and to become part of a balanced and sustainable community.

NEWTOWN

Newtown was in ancient times a prominent town, boasting a mayor and corporation and sending (before the Reform Act) two members to parliament. All that survives today of the ancient town is the old Town Hall, sixteen dwellings and two farms. There are a further eight dwellings just outside the village in Old Vicarage Lane. The village is unspoilt by modern development and it exudes old world charm. The National Trust owns several properties in the village and most of the surrounding land. The village has a Residents Association.
Cheswell

Cheswell lies within farmland. There is evidence of occupation before the Bronze age. Cheswell consists of just 10 dwellings with Shalcombe Manor the oldest and largest property, other properties include a thatched cottage, two farm workers cottages and 4 cottages built by the waterworks in the 1930's. Cheswell Pottery a well known tourist attraction was established in the late 1970's. There has been a continuous history of young families with children.

Five Houses

Originally the Five Houses were workers cottages for the Swainston Estate. Four are still standing and are in private ownership. Today there are thirteen homes, and to the south of the hamlet lies Crainges Copse (also known as Crangies) which was planted to provide timber for the Estate and is still managed and coppiced by the present owner.

Swainston & Watchingham

Swainston is the most important estate in Calbourne Parish. Records date back to 735AD when the land was granted to the Winchester Monastery of St Swithun. The name Swainston was acquired in the 11th century, derived from the King of Denmark, Sweyn. The estate became the most valuable property on the Island with its estate extending from the settlements of Newtown and Shalfleet to Calbourne, Brook, Mottistone and Brighstone. Today Swainston consists of the large Manor House opened as a hotel and restaurant, several dwellings and small industrial units.

Watchingwell once boasted a railway halt which is now one of five dwellings.
**PORCHFIELD**

Porchfield is the largest village in the ward of the same name, it has a village hall built by the local Women’s Institute who still meet there; the hall is now in the care of the Parish Council who have delegated the running to a committee of local people. The hall is the focal point of the village together with the nearby public house “The Sportsman’s Rest”. In the past the village had most of the usual amenities, grocer, baker, post office, blacksmith, school, filling station, pub and two chapels, sadly all have gone save the pub and the post office which is now only open for a few hours each week.

**THORNESS**

Thorness consists of several farms, a number of scattered houses and a large holiday complex.

**MARKS CORNER**

Marks Corner is a small hill top community of only 21 dwellings situated beside Parkhurst Forest and surrounded by open countryside. The name of this hamlet is known to have been in existence since 1780 and its nicknames include Donkey Town, Up the Mount and Monkey’s Hump. Until a few years ago there was a Methodist Church but at present there are none of the usual public amenities.
THE CREATION OF THE PARISH PLAN

In 2002 the Parish Council decided that a Parish Plan should be prepared. The first step was to invite the rural housing enabler who is employed by the Rural Community Council to help with a housing needs questionnaire. This was compiled and delivered to every household in the Parish and was responded to by 25%. The results showed that 9 families with local connections had a housing need in the area. The survey was completed in December 2003. By February 2004 a grant was promised from the Countryside Agency but the first 50% was not received until 1st April 2004, by which time a steering group of 15 willing volunteers from across the Parish had been set up. Meetings have been held at two monthly intervals since May 2004 with two major consultation days on November 13th in Porchfield and November 14th in Calbourne. The attendance at these events exceeded 40 in Porchfield and 50 in Calbourne. In addition, a questionnaire was compiled and delivered throughout the Parish to provide evidence of parishioners’ needs. Quarterly newsletters have been delivered to all households since November 2004. The May 2005 newsletter incorporated a draft action plan designed to form part of the overall Parish Plan after comments by the residents. Consultation and production of the Plan has been achieved to a tight timescale because of management changes at the Countryside Agency, DEFRA and the additional commitments of steering group volunteers.

THE VISION

- Maintains the rurality and special characteristics of the area.

- Ensures future sustainability by keeping an age balance of young and old living in the community.

- Enables local people to work locally in light industrial units and tourist attractions as well as in the agricultural element.

- Encourages young people to take part in sports and recreational activities.

- Strengthens the links between the villages and hamlets by provision of better community transport.
THE KEY ISSUES IDENTIFIED

HOUSING DEVELOPMENT

The results of the 2003 Housing Needs Survey indicated that 9 households needed affordable housing particularly in Calbourne village. 100% of the households were consulted and 25% replied. The accommodation needed was 2 x 1 bed homes for single people, 4 x 2 bed homes either for young couples or families already with children and 3 x 3 bed family homes as above. Of these 8 have requested or show some interest for shared ownership or low cost home ownership. The Housing Needs Survey is Annex 1 of the Plan.

CRIME PREVENTION AND POLICING

♦ Although crime figures show that Porchfield, Thorness and Marks Corner are very safe places in which to live; crime and fear of crime are very real causes of concern to many residents. There is a strong wish to see more police presence around the villages.

♦ In Calbourne, police need to monitor and enforce the parking restrictions, as irresponsible parking causes hazards.

<table>

<tbody>
<tr>
<td>CP1. Request regular presence of police in the villages and enforcement of speed limits and illegal parking.</td>
<td>Calbourne Parish Council</td>
<td>ongoing</td>
<td>Hampshire Police Authority</td>
</tr>
</tbody>
</table>
**TRANSPORT**

- Existing bus services do not meet the need of residents in Porchfield in particular. A regular bus service between Porchfield and Newport is essential for residents of all age groups especially for those going to and from work, shoppers, young people visiting friends or job seeking and anyone without private transport.

- Transport between the villages and travelling to events, theatres, etc. has also been identified as a need.

- Chessell residents would prefer the bus stop to be sited nearer to the crossroads.

- The need for a bus shelter on the north side of Calbourne Road at the Sun Inn was identified.

---

**Village Minibus**

**Regular bus service for workers!**

**Better Public transport Please!**

</tbody>
</table>
HIGHWAYS, DRAINAGE AND FOOTPATHS

♦ The poor state of the roads and speeding traffic generated the most concern amongst residents.

♦ It was felt that routine general maintenance of the highways would assist in keeping dangerous potholes to a minimum.

♦ Regular cleaning of drains and ditch clearance should be undertaken to prevent the annual occurrence of flooding.

♦ In keeping with a rural area residents requested fewer traffic signs, bollards and kerbs (except for safety reasons).

♦ Suitable traffic calming measures need to be created.

♦ Porchfield and Thorness need to be included in the winter gritting programme.

♦ There is a major concern regarding visibility at Calbourne cross roads from Elm Lane with parked vehicles to the east and notice boards to the west and traffic on the main road not adhering to the 40mph speed limit.

♦ There is a need for safety measures at Chessell road junctions.

♦ Footpaths, particularly safe off road footways, are needed to help walkers enjoy the rural surroundings and reduce car use.

♦ Rights of Way across farms and open land should be clearly marked.

♦ Residents of Old Vicarage Lane, Newtown wish the road to be adopted by the Isle of Wight Council.

♦ Footpaths and the footbridge at Newtown Nature Reserve are important to be preserved and kept well maintained.

**COMMERCIAL ACTIVITIES, EMPLOYMENT AND SHOPPING**

- Porchfield residents want to safeguard their existing facilities but do not wish to see the expansion of commercial activity. The residents strongly objected to any further development at Thorness Bay holiday park.
- Calbourne residents also want to safeguard their existing facilities.
- There is local support in Calbourne for a craft centre, with refreshment facilities such as a café. This could provide an outlet for several local entrepreneurs.

<table>

</table>
RECREATION AND LEISURE

- Provision of a full BT broadband service is needed.
- More community activities requested.
- Mobile library service needs to be re-instated.
- A place of worship is needed in Porchfield.
- Porchfield residents want to see the Village Hall refurbished.

<table>

PROVISION FOR YOUNG PEOPLE

- In Calbourne it was suggested a Youth Club should be formed and more facilities for children and young people be made available.

- The majority of residents in Porchfield were against the provision of outside sports and leisure facilities, with the exception of a small play area for children.

- A childrens play area was requested at Chessell.

<table>

**RENEWABLE ENERGY**

- The topic of renewable energy brought an overwhelming response against wind turbines; but positive comments were made on the conservation of energy, including solar energy, marine current turbines, biomass and biodiesel.

- Any future housing development, such as affordable housing, should make a minimal impact on energy use.

<table>

</table>
The overwhelming wish is to retain the rurality and character of the area.

The Winkle Street environment should be enhanced, and litter and dog bins should be provided.

The centre of Porchfield i.e. Village Hall, War Memorial and surrounds were identified for cosmetic improvements.

The Telephone Box in Newtown was seen to be unsightly and unnecessary.

Overhead cables should be put underground to improve the visual amenity.

More trees need to be planted to reduce traffic noise at Chessell.

Chessell residents would like a community fed bio-waste digester.

Calbourne Parish Council
Housing Needs Survey
2003
Calbourne Parish Council
Local Housing Needs Survey December 2003

1. Introduction

The Calbourne Parish Housing Needs Survey was carried out by the Isle of Wight Rural Housing Enabler based at the Rural Community Council.

The motivation for the survey was clearly explained in the covering letter that accompanied the questionnaires:

“We have for some time, been concerned that there is a lack of affordable housing in our parish available to either rent or buy on a shared ownership basis. This causes local people to move away in their search for an affordable home. In the long term this could have an adverse affect on our community, its services and amenities.”

The role of the Rural Housing Enabler is to support and encourage an increased provision of affordable local housing in rural areas across the island. This initiative is based on the acknowledgement that many local people are excluded from the housing market in rural areas due to the escalation in house prices. In this role the Rural Community Council has carried out the survey as an independent resource for the local community.

The survey has been carried out at no financial cost to the Parish Council.

2. Purpose and Methodology

The purpose of the survey was to acquire detailed information as to the current housing situation in Calbourne and to find out about the numbers and types of households in housing need. The survey also gave the people of the parish an opportunity to express their opinions on what types of housing might be needed and make any other relevant comments.

A basic outline of a housing needs survey was put before the Rural Housing Enabler steering group and agreed as a viable survey to give an accurate representation of housing need. This group includes representatives from the Isle of Wight Council’s Housing and Planning departments and five island Housing Associations. The Calbourne survey was compiled in consultation with
the Parish Plan Working group and the Parish Council and agreed by them in its final form before distribution.

The forms were hand-delivered by a team of volunteers from the Parish plan working group and the parish council to all households. The parish of Calbourne includes Porchfield, Newtown, Thorness, Marks Corner, Five Houses and Chessell. Forms were returned in pre-paid envelopes to the Rural Housing Enabler.

This is a total survey of 100% of households rather than a sample survey. The figures have not been 'grossed up' in any way so it can be assumed that the need stated is an accurate representation of the minimum need. The actual figures can be used as a guide for how many homes need to be built.

The survey form was split into two halves, the second half only being completed by those in housing need. It should be noted that a number of respondents did not complete all the questions asked in both sections.

3. Response to Survey

Of the 450 surveys distributed, 96 were returned, with a 25% population response rate. This level of response is good for a postal survey and big enough to have statistical validity.

The following is an analysis of the key features.

4. Need in the survey population

Of the 96 households responding 9 were in housing need. The total of 9 households represents 9% of the survey population.

5. Tenure/Housing type

Of all the properties in the survey population:

62% are houses
35% bungalows
0% flats
0% bed-sits
0% caravan/mobile home
3% 'other' e.g. farm, public house
3% have lived in the parish for less than a year
23% 1-5 years
13% 6-10 years
10% 11-15 years
20% 16-25 years
31% 26+ years

From this data it can be seen that there are very few small properties, no flats or bed-sits and therefore very limited options for first time buyers looking for small properties. 61% of respondents have lived in the parish for over 10 years, which also indicates that the turnover of properties is slow.

6. Reasons for need

Of the 9 households in housing need a variety of reasons were given as to why a new home is being sought. (more than one reason was given by a number of respondents)

6 wanted to be independent from their relatives/friends but could not afford to rent or buy anywhere in the private housing market.
2 wanted a bigger home
4 wanted to live nearer work
2 wanted to be nearer family

7. What type of housing do people think is needed in the parish?

This was a multi-choice question and the analysis is based on the total number of responses. The following are percentages of what types of housing respondents thought were needed in the parish.

62% housing for young families
26% warden assisted accommodation
8% sheltered housing
38% rented accommodation
10% other – e.g. shared ownership, accommodation for single people
13% thought there was no need for new housing

58% of respondents would not object to a housing development to meet local need.
8. The population in housing need

The households in need include a total of

2 25-44 yr. olds
2 16-24 yr. olds
1 0-15 yr. old

9. Local Connection

All the households in need would qualify for local needs housing and meet the local connection criteria, 8 by current residence and 1 by previous residence.

10. Registration of need

2 on register
7 not

Approximate figures given by the IWC housing department show a total of 278 applicants requesting Calbourne (not necessarily as their only choice), only 4 of these applicants are currently living in Calbourne. Therefore there are at least 2 additional local households who have a housing need in the area but have not filled out the survey.

Time scale for re-housing

4 now
4 within 3 years
1 has not answered this question

11. Type, size, tenure and location of housing required.

Please note, not all the questions were answered by all respondents

The survey has shown the following requirement for homes:

2 1 bed homes for single people
4 2 bed family homes (either for young couples or families already with children)
3 3 bed family homes (as above)

Of these, 8 have requested or show some potential for shared ownership or low cost home ownership.
12. **Conclusions and recommendations**

All of the 9 households in need would qualify for housing by local connection.

There is a requirement for a mixed development of mixed tenure. Shared ownership options should be seriously considered and some additional research done as to levels of affordability.

Longer term there is also likely to be a need for smaller, low cost homes to purchase on the open market.
