

**Sustainability Appraisal (SA) Screening Report on
Chale Village Design Statement
Nettlestone and Seaview Parish Plan
Yarmouth and Thorley Community Plan**

Introduction

In order to consider whether each community led plan is likely to have any significant environmental effects on the Island's natural and built environment, a Sustainability Check has been applied to each individual document using the following screening criteria:

1. Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant Development Plan Document (DPD)?
2. Does the plan propose a higher level of development than has been identified in the relevant Island Plan documents?
3. Will the plan lead to major (development) projects in the future?
4. Is the plan likely to affect nature conservation sites of European (EU) importance?

While all of these criteria have been judged to be in conformity simply with a 'Yes' or 'No' response, the first test, *'Is the plan likely to have a negative impact when assessed against the Sustainability Appraisal (SA) Objectives of the relevant DPD'* is in essence a summary of an assessment of the documents' content against the SA Objectives of the relevant DPD, in this instance the Core Strategy Sustainability Appraisal. Appendix 1 details the assessment of each of the documents.

The following tables set out the summary of the SA check for each document:

Table 1: SA Summary of Chale Village Design Statement

<i>Chale Village Design Statement</i>			
Conformity Test	(Y/N)	Conformity with Core Strategy SA Objectives (Y/N)	Explanatory Text
1. Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD.	N	Y	The plan is not likely to have a negative impact when assessed against the SA Objectives of the Core Strategy.
2. Does the plan propose a higher level of development than has been identified in the relevant Island Plan documents?	N	Y	The plan does not propose a higher level of development than that which is set out in the Core Strategy. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
3. Will the plan lead to major (development) projects in the future?	N	Y	The plan will not lead to major development projects in the future. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
4. Is the plan likely to affect nature conservation sites of European (EU) importance?	N	Y	The plan is not likely to affect nature conservation sites of European (EU) importance. Therefore the plan is in conformity with the SA Objectives of the core Strategy on this test.
Overall summary assessment			
The plan is in conformity when applying the above tests (1-4).			
Any further actions required			
No further actions required			

Table 2: SA Summary of Nettlestone and Seaview Parish Plan

<i>Nettlestone and Seaview Parish Plan</i>			
Conformity Test	(Y/N)	Conformity with Core Strategy SA Objectives (Y/N)	Explanatory Text
1. Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD.	N	Y	The plan is not likely to have a negative impact when assessed against the SA Objectives of the Core Strategy.
2. Does the plan propose a higher level of development than has been identified in the relevant Island Plan documents?	N	Y	The plan does not propose a higher level of development than that which is set out in the Core Strategy. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
3. Will the plan lead to major (development) projects in the future?	N	Y	The plan will not lead to major development projects in the future. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
4. Is the plan likely to affect nature conservation sites of European (EU) importance?	N	Y	The plan is not likely to affect nature conservation sites of European (EU) importance. Therefore the plan is in conformity with the SA Objectives of the core Strategy on this test.
Overall summary assessment			
The plan is in conformity when applying the above tests (1-4).			
Any further actions required			
No further actions required			

Table 3: SA Summary of Yarmouth and Thorley Community Plan

<i>Yarmouth and Thorley Community Plan</i>			
Conformity Test	(Y/N)	Conformity with Core Strategy SA Objectives (Y/N)	Explanatory Text
1. Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD.	N	Y	The plan is not likely to have a negative impact when assessed against the SA Objectives of the Core Strategy.
2. Does the plan propose a higher level of development than has been identified in the relevant Island Plan documents?	N	Y	The plan does not propose a higher level of development than that which is set out in the Core Strategy. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
3. Will the plan lead to major (development) projects in the future?	N	Y	The plan will not lead to major development projects in the future. Therefore the plan is in conformity with the SA Objectives of the Core Strategy on this test.
4. Is the plan likely to affect nature conservation sites of European (EU) importance?	N	Y	The plan is not likely to affect nature conservation sites of European (EU) importance. Therefore the plan is in conformity with the SA Objectives of the core Strategy on this test.
Overall summary assessment			
The plan is in conformity when applying the above tests (1-4).			
Any further actions required			
No further actions required			

Table 4: SA Assessment Scoring

Score	Description	Symbol
Major Positive Impact	The proposed policy contributes significantly to the achievement of the objective	++
Minor Positive Impact	The proposed policy contributes to the achievements of the objective but not significantly	+
Neutral	The proposed policy does not have any effect on the achievements of the objective	0
Minor Negative Impact	The proposed policy detracts from the achievement of the objective but not significantly	-
Major Negative Impact	The proposed policy detracts significantly from the achievement of the objective	--
No Relationship	There is no clear relationship between the proposed policy and the achievement of the objective or the relationship is negligible	~
Uncertain	The proposed policy has an uncertain relationship to the objective or the relationship is dependant on the way in which the aspect is managed. In addition, insufficient information may be available to enable an assessment to be made	?

Appendix 1 – Detailed Sustainability Appraisal Assessments of Individual Documents

Table 5: Screening of Chale Village Design Statement against the SA Objectives of the Core Strategy

<i>Chale Village Design Statement</i>			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
1. Air Quality: To provide a transport network which maximises access whilst minimising detrimental impacts on air quality	Does it reduce the amount of congestion on the Island's roads?	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21 This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.
	Does it increase the proportion of people using public transport, cycling and walking?	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21 This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.
	Does it reduce number of car trips?	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21 This section of the plan suggests that

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
			developers should consider cycle/footpath linkages and their improvement as a component of any development.
	Does it maintain or decrease current levels of air pollutants from ferry activity and other polluting activities?	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21 This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.
2. Coasts: To reduce the risk to people and property from coastal erosion and instability.	Reduce the risk to property and people from erosion and instability and avoid damage to the coastline or loss of amenity as a result of human activity.	~	The relationship is negligible.
	Seek to promote protection, restoration and enhancement of coastal zone by seeking to sustain natural systems and processes including opportunities identified within the Shoreline Management Plan for managed retreat of the coastline, where defence is no longer economically viable or sustainable.	~	The relationship is negligible.
	Improve the quality and cleanliness of the beaches around the Isle of Wight and ensure that development does not negatively impact on the current levels of beach quality and cleanliness.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
3. Water: To maintain and improve the water quality of the Island's groundwater, rivers and coasts and to achieve sustainable water resources management.	Limit abstraction on the Isle of Wight to a sustainable level.	~	The relationship is negligible.
	Ensure the efficient and sustainable use of water and reduce the reliance on water imported to the Island.	~	The relationship is negligible.
	Protect the quality of water by controlling development likely to adversely affect groundwater, surface water, bathing water, and estuaries quality.	~	The relationship is negligible.
	Maintain groundwater and surface water levels and flows of designated sites	~	The relationship is negligible.
4. Landscape, archaeology and heritage: To protect and enhance the Island's natural and historic environment and character, and to achieve sustainable development within a sensitive landscape	Conserve and enhance the AONB in line with its designated status, purpose and the AONB Management Plan.	+	Landscape Setting and Shape of the Settlement Chapter, sub-section – Area of Outstanding Natural Beauty/Heritage Coast p-5 This section of the plan provides guidance on the importance of achieving a balance between the economic activity in the area and the conservation of the village's natural beauty and landscape heritage. When considering proposals for development.
	Conserve and enhance the Tennyson and Hamstead Heritage Coasts in line with their status, purpose and	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/~/?	Commentary/Explanation
	AONB Management Plan.		
	Protect tranquil areas on the Island and avoid risk to them from light and noise pollution and increases in traffic.	+	Traffic and Communication Links, sub-section – Dark Skies p-20 This section of the plan encourages property owners to minimise the use of security lighting and particularly systems that can be triggered by wildlife or passing vehicles.
	Protect the landscape and settlement character of the Island and ensure that any change in land use does not negatively impact on the existing character of the area.	+	Buildings and Materials Chapter p-11-19 The Buildings and Materials section of the plan provides specific guidance on how proposals for development should consider existing buildings, settings, size, mass, scale, local distinctiveness and visual impact on the surrounding areas in relation to the historic and built environment. Landscape Setting and Shape of the Settlement Chapter, sub section –Area of Outstanding Natural Beauty/Heritage Coast p-5

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
			This section of the plan provides guidance on the importance of achieving a balance between the economic activity in the area and the conservation of the village's natural beauty and landscape heritage. When considering proposals for development.
	Positively enhance landscape and settlement character.	~	The relationship is negligible.
	Protect the fabric and setting of Designated and undesignated archaeological sites, monuments, structures and buildings recorded on the Isle of Wight Historic Environment Record; Historic Parks and gardens, maritime and coastal heritage, listed buildings and conservation areas.	+	Buildings and Materials Chapter p-11-19 The Buildings and Materials section of the plan provides specific guidance on how proposals for development should consider existing buildings, settings, size, mass, scale, local distinctiveness and visual impact on the surrounding areas in relation to the historic and built environment.
	Conserve and enhance Conservation Areas in line with adopted Management Plans.	~	The relationship is negligible.
5. Biodiversity, fauna and flora: To conserve and enhance the Islands biodiversity, fauna	Maintain and/or increase biodiversity and the variety of habitats on the Island.	+	Spaces and Boundaries Chapter, sub-section – house boundaries and screening p-9 The guidance in the plan suggests where hedges are created or replanted; locally found native

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
and flora.			species (blackthorn, hawthorn, oak, ash, elm, spurge laurel and dog rose) are preferable to modern conifer hybrids in order to sustain biodiversity.
	Provide opportunities for people to come into contact with wildlife places whilst encouraging respect for and raising awareness of the sensitivity of these sites and avoid adverse effects on their integrity.	~	The relationship is negligible.
	Avoid net loss, damage to, or fragmentation of designated wildlife sites and the qualifying habitats and species (marine, estuarine, terrestrial and freshwater).	~	The relationship is negligible.
6. Soil, geology and land use: To ensure appropriate land use in relation to soil and geology functionality and to improve efficiency in land use.	Protect the function of designated geological sites on the Island as scientific and educational resources.	~	The relationship is negligible.
	Ensure that regional quotas for mineral extraction are met whilst minimising the environmental and social impact of extraction.	~	The relationship is negligible.
	To support the viability of agriculture and forestry to ensure that they build upon local and Island-specific markets and create local employment.	~	The relationship is negligible.
	Encourage the remediation and re-use of contaminated and brownfield land.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
	Protect areas which have value for their mineral resource, coastal position, employment land etc.	~	The relationship is negligible.
	Protect soils and their functionality in land use planning and sustainably manage soils as a finite multi-functional resource, specifically including best and most versatile agricultural land.	~	The relationship is negligible.
7. Waste: To reduce waste generation and disposal, and to achieve the sustainable management of waste.	Minimise the future land-take for landfill on the Island.	~	The relationship is negligible.
	Minimise the production of waste then re-use or recover through recycling, composting or energy recovery.	~	The relationship is negligible.
8. Climate Change Mitigation To minimise future climate change through reducing emissions of carbon dioxide and other greenhouse gases.	Reducing the need to travel	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21 This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.
	Ensure the efficient use of energy on the Island.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
	Increase the use of renewable resources to generate electricity and use of CHP.	~	The relationship is negligible.
9. Climate Change Adaptation To reduce the risks to people and properties from the effects of climate change.	New development should not be at risk from flooding.	~	The relationship is negligible.
	Ensure development does not increase flood risk.	~	The relationship is negligible.
	Increase the capacity for climate change adaptation through provision of Green Infrastructure.	+	Spaces and Boundaries Chapter, sub-section – house boundaries and screening p-9 The guidance in the plan suggests where hedges are created or replanted; locally found native species (blackthorn, hawthorn, oak, ash, elm, spurge laurel and dog rose) are preferable to modern conifer hybrids in order to sustain biodiversity.
	Increased opportunities for sustainable travel, including public transport, walking and cycling.	+	Traffic and Communication Links, sub-section - Footpaths and Bridleways p-21 This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
<p>10. Culture and local distinctiveness</p> <p>To maintain and protect the local culture, traditions and civic pride of Island towns and villages and increase engagement in cultural activity</p>	<p>To secure better opportunities for people on the Island to have access to a range of cultural activities/facilities/events.</p>	+	<p>Landscape Setting and shape of the settlement Chapter, sub-section – Community facilities/location/needs p-5</p> <p>This section of the plan provides character descriptions for a number of community facilities in the locality, including the Women’s Institute Hall and Scout Hut. These facilities are of historically important to the village and meet the needs of the local community. These facilities should be retained.</p> <p>Landscape Setting and Shape of the Settlement Chapter, sub-section – Community facilities/location/ needs p-5</p> <p>This section of the plan provides character descriptions for the village shop, Post Office and pub. These retail uses are historically important to the village and meet the needs of the local community.</p>
11. Population:	To achieve a balanced population structure on the Island.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
To develop and maintain a balanced and sustainable population structure on the Island	To balance the needs of permanent residents and visitors.	~	The relationship is negligible.
12. Crime and safety: To reduce crime and the fear of crime and ensure safety in the public realm	To reduce the fear of crime.	~	The relationship is negligible.
	To cut levels of crime and disorder, including anti-social behaviour.	~	The relationship is negligible.
13. Health: To improve the health and well being of the population and reduce inequalities in health.	To cut levels and inequalities in incidence and mortality from cancer, coronary heart disease, suicide and accidents.	~	The relationship is negligible.
	To keep an appropriate balance between services provided on the Island and the mainland.	~	The relationship is negligible.
	To support Social Services and health services agencies to safeguard a range of residential and nursing home provision for Island residents.	~	The relationship is negligible.
	Ensuring adequate access to the natural environment in contributing to people's physical and mental wellbeing, and also encouraging increased opportunities for walking and cycling.	+	Traffic and Communication Links, sub-section – Footpaths and Bridleways p-21

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
			This section of the plan suggests that developers should consider cycle/footpath linkages and their improvement as a component of any development.
14. Social Inclusion: To reduce the level and distribution of poverty and social exclusion across the Island.	Promote community involvement and access to information and to empower local communities to become more involved in making local decisions.	+	The aim and benefits of Chale Village Design Statement is to give people in Chale the opportunity to provide their views on the character of the village and surrounding areas.
	To address the level and the distribution of wealth across the Island.	~	The relationship is negligible.
	To ensure there is an equitable distribution of services and facilities for all sectors of society.	~	The relationship is negligible.
15. Education and training: To raise educational achievement levels across the Island and develop opportunities for everyone to acquire the skills they need to find and remain in work.	Ensure there is adequate provision of education facilities associated with new developments.	~	The relationship is negligible.
	Improve education attainment levels in school leavers.	~	The relationship is negligible.
	Improve skills and qualifications within the workforce.	~	The relationship is negligible.
	To help in the provision of leaning opportunities that match skills supply to the demand of the local economy and businesses.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
16. Access: To improve accessibility to all services and facilities.	To ensure transport is accessible for all sectors of the community including those with mobility problems.	~	The relationship is negligible.
	Improving access to services and facilities (e.g. retail, leisure, sporting, cultural, communication, open space etc).	+	<p>Landscape Setting and Shape of the Settlement Chapter, sub-section – Community facilities/location/ needs p-5</p> <p>The section of the plan provides character descriptions for the village shop, Post Office and pub. These retail uses are historically important to the village and meet the needs of the local community.</p> <p>Spaces and Boundaries Chapter, sub-section – Green public spaces – recreational facilities p-7</p> <p>The guidance in this plan states that Chale Green is one of the most notable features within the village and retaining its open nature is very important to the character of the village.</p>
	Improve access to jobs, higher level education, skills and training.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/~/?	Commentary/Explanation
	Improve access for permanent residents to affordable homes.	+	Spaces and Boundaries Chapter, sub-section – Spaces between houses/infilling p-8 The guidance encourages affordable housing for local people within the parish.
	Improve access to smaller residential units for smaller households.	~	The relationship is negligible.
17. Material assets To ensure the provision of adequate infrastructure for transport, utilities, housing and public facilities to meet the needs of residents and	Improve condition of dwellings on the Island.	~	The relationship is negligible.
	To meet housing needs on the Island.	+	Spaces and Boundaries Chapter, sub-section – Spaces between houses/infilling p-8 The guidance encourages affordable housing for local people within the parish.
	Ensure that the existing utilities infrastructure is sufficient to support existing and new development.	~	The relationship is negligible.
	To improve the physical quality of the Island’s transport infrastructure network through appropriate investment.	~	The relationship is negligible.
18. Employment: To ensure high and stable levels of	Create opportunities to diversify the employment base.	~	The relationship is negligible.
	Increase average wages to achieve a better paid workforce.	~	The relationship is negligible.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/--/~/?	Commentary/Explanation
employment so everyone can benefit from the economic growth of the island.	Reduce distances people travel to work.	+	Spaces and Boundaries Chapter, sub-section – Trees and Woodlands p-7 The guidance encourages forms of land-use diversification that enhance ecotourism through recreational use, but do not compromise the character of the area. This could provide jobs for local people.
	Improve opportunities for permanent and less seasonal employment on the island.	~	The relationship is negligible.
	Reduce unemployment.	~	The relationship is negligible.
19. Investment in business: To stimulate economic revival in priority regeneration areas	Provide opportunities for growth within small businesses and SMEs.	~	The relationship is negligible.
	Provide opportunities for development and enhancement of traditional and local businesses and industry.	+	Spaces and Boundaries Chapter, sub-section - Trees and Woodlands p-7 The guidance encourages forms of land-use diversification that enhance ecotourism through recreational use, but do not compromise the character of the area. This could provide jobs for local people.

Chale Village Design Statement			
Is the plan likely to have a negative impact when assessed against the SA Objectives of the relevant DPD?			
SA Objectives	Appraisal Questions	Assessment Score ++/+/0/-/~/?	Commentary/Explanation
	To create opportunities for and facilitate inward investment for a range of business size.	~	The relationship is negligible.
	Improve quality of tourism accommodation and attractions.	~	The relationship is negligible.
20. Economic performance: To sustain economic growth and competitiveness.	Increase per capita GVA/GDP.	~	The relationship is negligible.
	Increase the number of products 'exported' from the Island (to mainland and other countries).	~	The relationship is negligible.
	Link local consumers to local markets to help provide a viable farming and forestry sector.	~	The relationship is negligible.
	Improve the balance from net importer of goods etc to being more self-sufficient.	~	The relationship is negligible.
	Increase the proportion of the population who are economically active.	~	The relationship is negligible.
	Encourage the development of a buoyant, sustainable tourism sector and to increase the diversity of the tourism market.	+	Spaces and Boundaries Chapter, sub-section – Trees and Woodlands p-7 The guidance encourages forms of land-use diversification that enhance ecotourism through recreational use, but do not compromise the character of the area. This could provide jobs for local people.

<i>Chale Village Design Statement</i>
