

Feedback from parents and children about the short breaks activities at Bodsters

"Thanks for the photos but thank you more for being so fab at what you do and understanding. For S to come out of a wobble so calmly and quickly shows she feels confident in your understanding. Thank you."

"The confidence you give all your learners is fantastic and the way you and your horses can get through some difficult barriers is amazing. Yes he loved it and can't wait to come back again he wants to come next week but we have other arrangements already booked. Thanks for booking him in for the 13th October. Thanx again it was great to see J really wanting to do an activity and coming home and being so enthusiastic about it."

"I have been bringing my son to Bodster for several months now and it has been fantastic to watch him develop. He has autistic - like symptoms and finds the horses really easy to relate to. They have taught him how to socialize, increased his self-esteem and most importantly to us, he enjoys the group aspect and has made some friends. Jo and Giles are brilliant with the children and we can't recommend it highly enough."
