

# Trade Union Facility Time 2019 - 2020

The Trade Union (Facility Time Publication Requirements) Regulations 2017 took effect from 1 April 2017. These regulations were laid following the enactment of the Trade Union Act 2016. The Trade Union Act was passed in May 2016; one of the elements of this Act is the requirement for employers in the public sector to publish information on facility time.

## 1. Facility time arrangements at the Isle of Wight Council

The Isle of Wight council whilst having statutory obligations to comply with employment legislation to make provision for trade union facility time, believes in the benefits that can be realised by positive employee relations. All facility time arrangements are set out in an agreement in which all parties can make a positive contribution to the efficient and effective management of council services by setting out the consultation processes, conditions of recognition and facilities which will be made available to Union representatives and specifying how reasonable time off for union duties and activities, training and for health and safety, can work to the mutual advantage of both parties. The agreement takes account of current practices within the council; employment protection legislation; the ACAS Code of Practice for time off for trade union duties and activities, the health and safety commission code of practice on safety representatives and appropriate national agreements.

The council affords reasonable time off with pay to trade union representatives, subject to the needs of the service, to carry out duties concerned with employee relations and the members they represent. The purpose for this time off must be either to carry out official union duties or to undergo relevant training as approved by the TUC or Trade Union. The amount of time-off a steward may take to undertake official union duties in their particular constituency should not normally exceed one day per month, with an additional two hours per month plus travelling time being allowed to attend Union meetings to discuss employee relations matters concerning the Council. There will normally be a maximum of one steward in each of the council service areas.

The Isle of Wight Council understands that the purpose of these Regulations is to promote transparency and allow for public scrutiny of facility time and that it is a relevant public sector employer under the Act and therefore will collect and publish, on an annual basis, a range of data in relation to their usage and spend of TU facility time in respect of their employees who are TU representatives.

The facility time (FT) data that organisations are required to collate and publish under the 2017 regulations are:

- Number of employees who were relevant union officials during the relevant period How many employees who were relevant union officials during the relevant period spent a)0%, b)1 – 50%, c) 51-99% or d)100% of their working hours on facility time
